

The Management and staff of **GEORGIOS A. MOULAS - Moulas Scientific**, knowing the importance of environmental protection for a sustainable development, developed and implemented an **Environmental Management System**, in accordance with the guidelines of the international standard ISO 14001:2015. The SPD covers all of the company's activities.

In this direction, the management of **GEORGIOS A. MOULAS - Moulas Scientific**, is committed to:

- Comply with any legislative or other requirement to which the company's activities fall and is related to its environmental aspects.
- Assess the environmental impact of its activities with the aim of reducing or even eliminating negative environmental impacts.
- Be active in every possible way to protect the environment and prevent pollution, and
- Pursue continuous improvement through goal setting.

Based on these commitments, the Management of **GEORGIOS A. MOULAS - Moulas Scientific** aims to:

- Carrying out actions to save energy, reduce water consumption, prevent pollution but also reduce and properly manage the waste produced.
- Informing all involved bodies about the environmental actions it carries out in order to raise their awareness and participation.
- Training and raising awareness of its staff with the aim of their active participation in the environmental management system.
- Informing customers about the company's environmental actions, with the aim of encouraging their active participation.
- Taking actions for the sustainable use of resources, adaptation to climate change and the protection of biodiversity and ecosystems.

The above guidelines of our policy are achieved through the EN ISO 14001:2015 Environmental Management System, with the development of specific and measurable goals, the regular control of environmental parameters, the control of the performance of interventions, the inspection of the performance of the System and the review of its goals in order to upgrade them.

The General Manager

George Moulas
